

Instructions

The solid lines are for cutting and the dashed lines are folded. Cut around the outside of the shape, removing the empty section and cutting the small edge slits. Glue or tape the large tab in place taking care to glue or tape right to the edge of the cut slit. To form the edge, overlap the two parts either side of a cut until the edges of the umbrella are flush. Glue or use sticky tape to secure in position. Use a skewer for a handle, and sandwich the umbrella skin between 2 pieces of sticky tack to hold it in place.
