

Instructions

Cut out the three pieces. Fold the three lines on Miriam's chest. These folds will go both ways. Cut the arm lines to detach them from the body. Folding Miriam in half cut along the straight line by her necklace. Split the folds so one bends backwards and the other forwards. Both arms have one fold too. Add glue to the back of the sleeves and stick the tambourine arms in place. Glue the guide tab on the back of Miriam slightly to one side. Insert the skewer, stick or straw through the guide tab and tape onto Miriam's head. Hold the stick in one hand and the skirt in the other. Gently move the skirt up and down.
