

**You'll need:**

Scissors,  
Sticky tape.

**Instructions**

Cut out the square

Fold along the long horizontal dotted lines.

Fold the middle section together so you can cut along the dotted lines

Once folded use a small piece of tape to secure at the edges so it doesn't come totally unfolded.

Use a pair of scissors to cut along the four cut lines, to form 3 flaps that can be folded up later.

As you tell the story fold up each flap to reveal what each servant did.

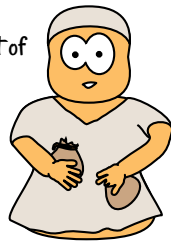

A rich man gave three of his servants money to look after then left on a journey.

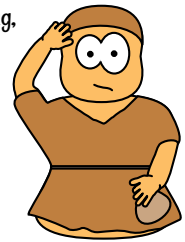

To one servant he gave 5 bags, each with a talent of Gold

To another servant he gave 2 bags, each with a talent of Gold

To the last servant he gave just 1 bag, with a talent of Gold

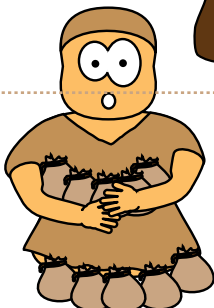

When the master returned the first servant presented 10 talents of gold for him

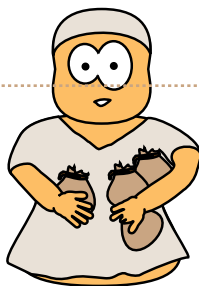

The second servant had also doubled his gold and presented 4 talents of gold to the master

The final servant had chosen to bury his talent.

The Master was pleased and promised to reward the good and faithful servant.

The Master was pleased and promised to reward the good and faithful servant.

The Master was furious he had not tried to use it. He took his talent and sent the servant away with nothing

What talents do you have you can use for God's glory?
