

99 Sheep

Roll a dice and travel along the pathway collecting sheep. The person with the most sheep at the end is the winner. Foxes and lions lose you one sheep!

The board game board consists of a winding path of 36 green-bordered circles. The path starts at a shepherd icon at the top and ends at a barn icon at the bottom right. Various icons are placed along the path, including sheep (1-3), foxes, and lions. There are also several grey stone icons scattered across the board. The path winds around a large tree in the center and several bushes. The shepherd icon is at the top center, and the barn icon is at the bottom right.
