

You'll need:

Scissors, glue & craft knife.

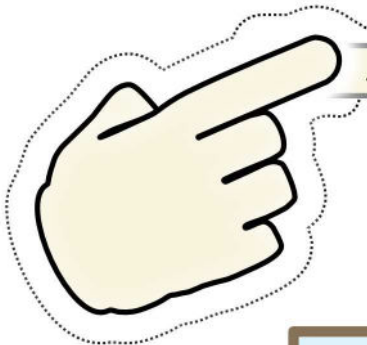

Instructions

Cut along the slit line in the background and remove the white rectangle from the mouth with a craft knife. Then cut out all the pieces.

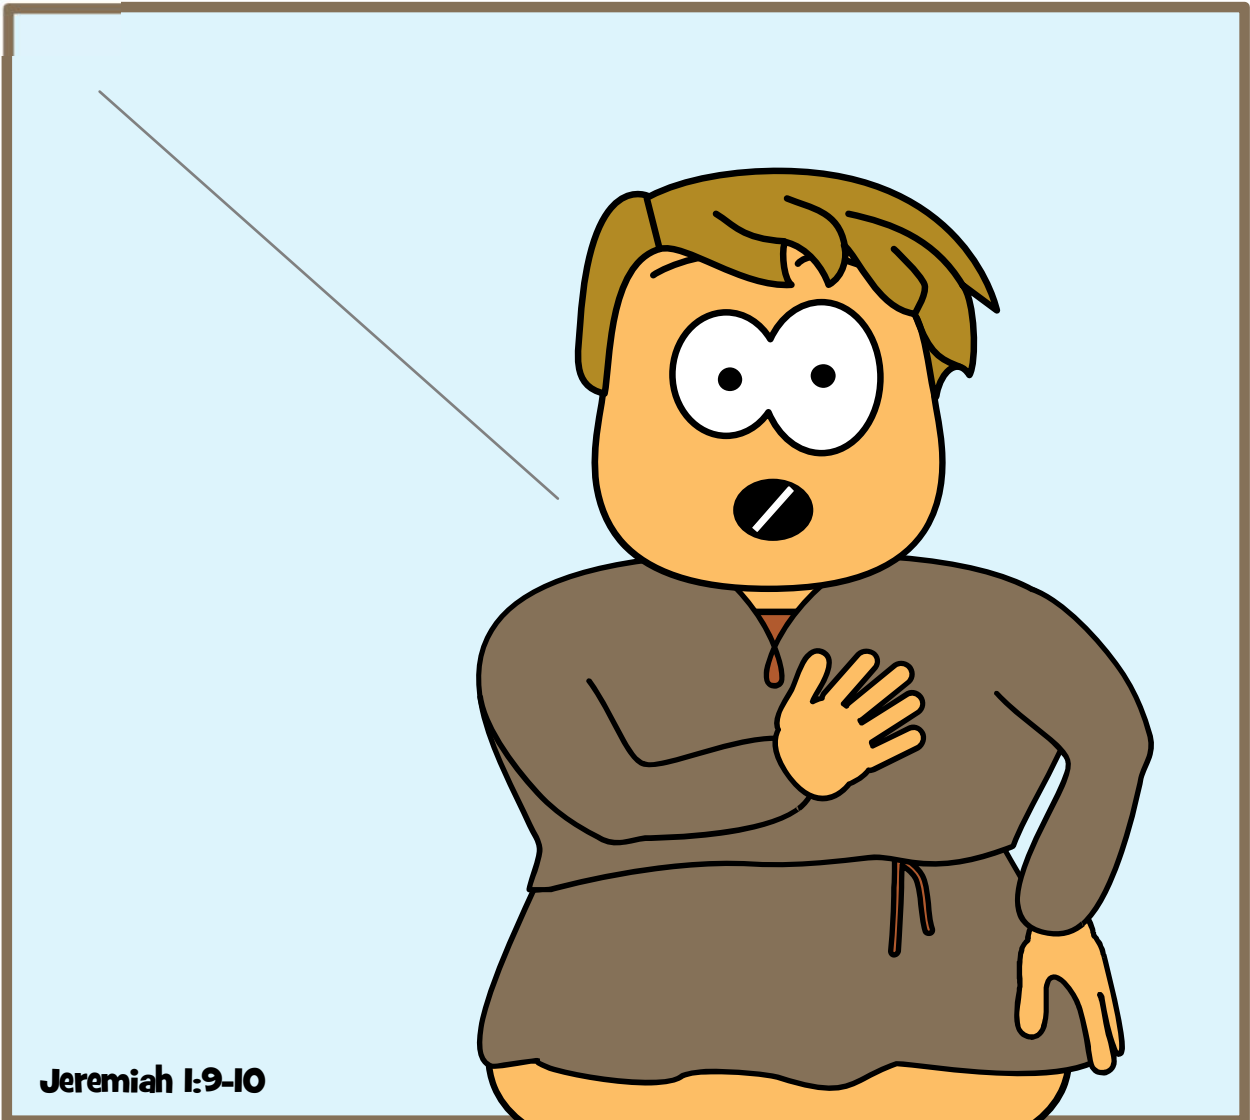

Fold the small white rectangle along the dotted lines and push through the long slit so the words are visible and it freely slides along the line.

Add a small drop of glue onto the slider and position at the Jeremiah end of the line.

Thread the words into the mouth until they are not visible then attach the hand to the slider mechanism.

...to uproot and tear down, to destroy and demolish, to build and plant

Jeremiah 1:9-10
